The new benches in the commons are really convenient. I really like them, but they're kind of hard on the posterior end. (Susie Rosenberg) . . . I think the benches in the commons were a good idea so people could just sit and do nothing. (Don Walker) . . . The candy sales provided a fun, yet worthwhile, money-making project for the students. (Susie Roseberg) . . . I didn't like the Mid-American singers at all. I didn't like what they sang or how they sang it. I don't like their kind of music! (Debbie Lewis) . . . I liked the Mid-American singers because I like songs and their dancing. (Kim Shumway) . . . I think the fire was sort of an advantage for Garrett. A small town needs new businesses and ideas to keep on prospering, and the fire just might be the start of something great — you never know! (Joyce Schultz) . . . I thought the Jr.-Sr. picnic was really fun. It's neat to see all the teachers playing softball and stuff instead of teaching. (Anon.) . . . The food at the picnic was really great! (Randy Surfus) . . .

... All I can say about the play is that I loved it. (Tom Newman) ... Although it took alot of hard work, I never have enjoyed anything as much in my life. (Debbie Lampe) ... The all school play was a lot of fun. I never realized before that Garrett had so much talent. (Phil Kuykendall) ... From the play I found that our school has a large amount of untapped talent. I just wish that we had a better fine arts department so that some of it could be discovered and used. I hope Hello, Dolly proved it. (Teresa Koskie)

... After two years of idleness, the fine arts department took on the difficult task of performing the famous broadway musical — Hello, Dolly. Through alot of hard work and over 4,000 man hours, the show was presented with much success. The play was light and humorous, with a large amount of the entertainment coming from songs and dance numbers. Without the devoted time of the director Miss Koons, the musical director Mr. John Branam, and the choreographer Miss Jordan Hamm, Hello, Dolly would not have been A SMASHING SUCCESS!!!!!

One important thing that a girl should remember is to always be herself. (Debbie Lampe) . . . I feel that your personality should carry more weight than poise or physical beauty in a beauty pageant. Even when you are under pressure your personality is still the real you. It's yours and no one else's. I definitely feel that your personality is your most important character trait. (Ramona Miller) . . . Beauty Pageants aren't for everyone. Anyone who is even considering entering a beauty pageant should decide what kind of a person they think they are. Some of my feelings toward the pageant are not pleasant. But, that was because I was put into a situation where I was unable to be myself. (Polly Creager) . . . I really enjoyed the Miss Garrett Pageant. It was nice to be able to visit with all my friends after a long summer vacation. Although there was a lot of hard work involved, the Miss Garrett Pageant was an experience for everyone participating. (Jan Dove Miss Garrett '73).

After Roush and Bloom came the election became a big success, with over 459 participants. (Steve Zeider). . . . Listening to Roush and Bloom was fun; I liked asking them questions about current issues. (Diane Gingery) . . . Doing Vaudeville was a lot of fun, except for some of the smart remarks kids yell at you, and all that work we had to do. (Jacque Black).

Everyone didn't stand up and shout like they did on V-J day, but you have to be glad that our guys are coming home. (Pat Whyte) . . . I was glad to see it end, the Vietnam War that is. Maybe now Nixons era of peace for America can become a reality. Who knows; we might have an everlasting world peace. (Kevin Derrow).

When I stood and yelled "the British are coming!" I didn't know what I was doing. After I sat down I asked myself why I did it; when people told me what I did I didn't believe them. (Randy Endsley) . . . I can't really explain it, but I felt relaxed and carefree. I didn't have anything on my mind. Hypnotism definitely was fun. (Debbie Lewis).

LITTLE 500: The thing that made it colorful was cotton candy that was flying around — I know — I made it. (Diann Jones) . . . I liked the girls buck-buck- the best. (Loren Dove) . . . It was one of the best we've had since I've been in school. (Ralana Nodine) . . . The weather could have been better, but it was fun anyway. The girls tricycle race was very exciting! (Mary Reed)

It was a fun experience for all classes. Even though the pushball got busted, the juniors and seniors got along fine. (Hiram Walker). . . . It was cold outside, but it was good. (Jody Adams) . . . This has been the best Little 500 yet. The chess tournament will be better next year with more people. (Jens Sorenson) . . . I loved the tacos! (Laurie Derickson)

1973's Little 500 featured nine events. In the boys soccer game, the sophomores downed the freshmen 1-0. Shannon Derrow and Tina Fostic won the girls tricycle race. The juniors lost to the seniors 33-1 in a last minute soccer game. The junior high chess tournament was won by Jeff Mellot over Lars Sorenson.

The team of Esselburn, Martin, Simon, and Rassel captured the junior high bike race while the senior high bike race was won by the team of Newman, Carr, Ellert and Christlieb. The girls football game was won by the seniors with the score of 22-0. Many clubs participated by selling food. Spanish, Latin, O.E.A., Varsity Cheerleaders, and the sophomore class had booths.

It was fun and dandy. (Jerry Bowman) . . . The food was good. (Brian Flesh) . . . The refs were rotten in the freshman-sophomore soccer game, especially Mr. Crist. (Hank Carper) . . . It gave all clubs a chance to participate. (Karen Gentis) . . . It was out-of-sight! (Karen Feasel) . . . It was good to get out of school. (Dave Claxton) . . . The tacos were good. (Steve Harmon)

The junior high bike race was very fast; Walker was a great contestant. (David Walker) . . . I thought the girls buck-buck was good and fun. And the sophomore girls did not cheat! Also the snowcones were really great. (Becky Smith) . . . It looked like it was snowing because the cotton candy machine overflowed. (Denny Smith)

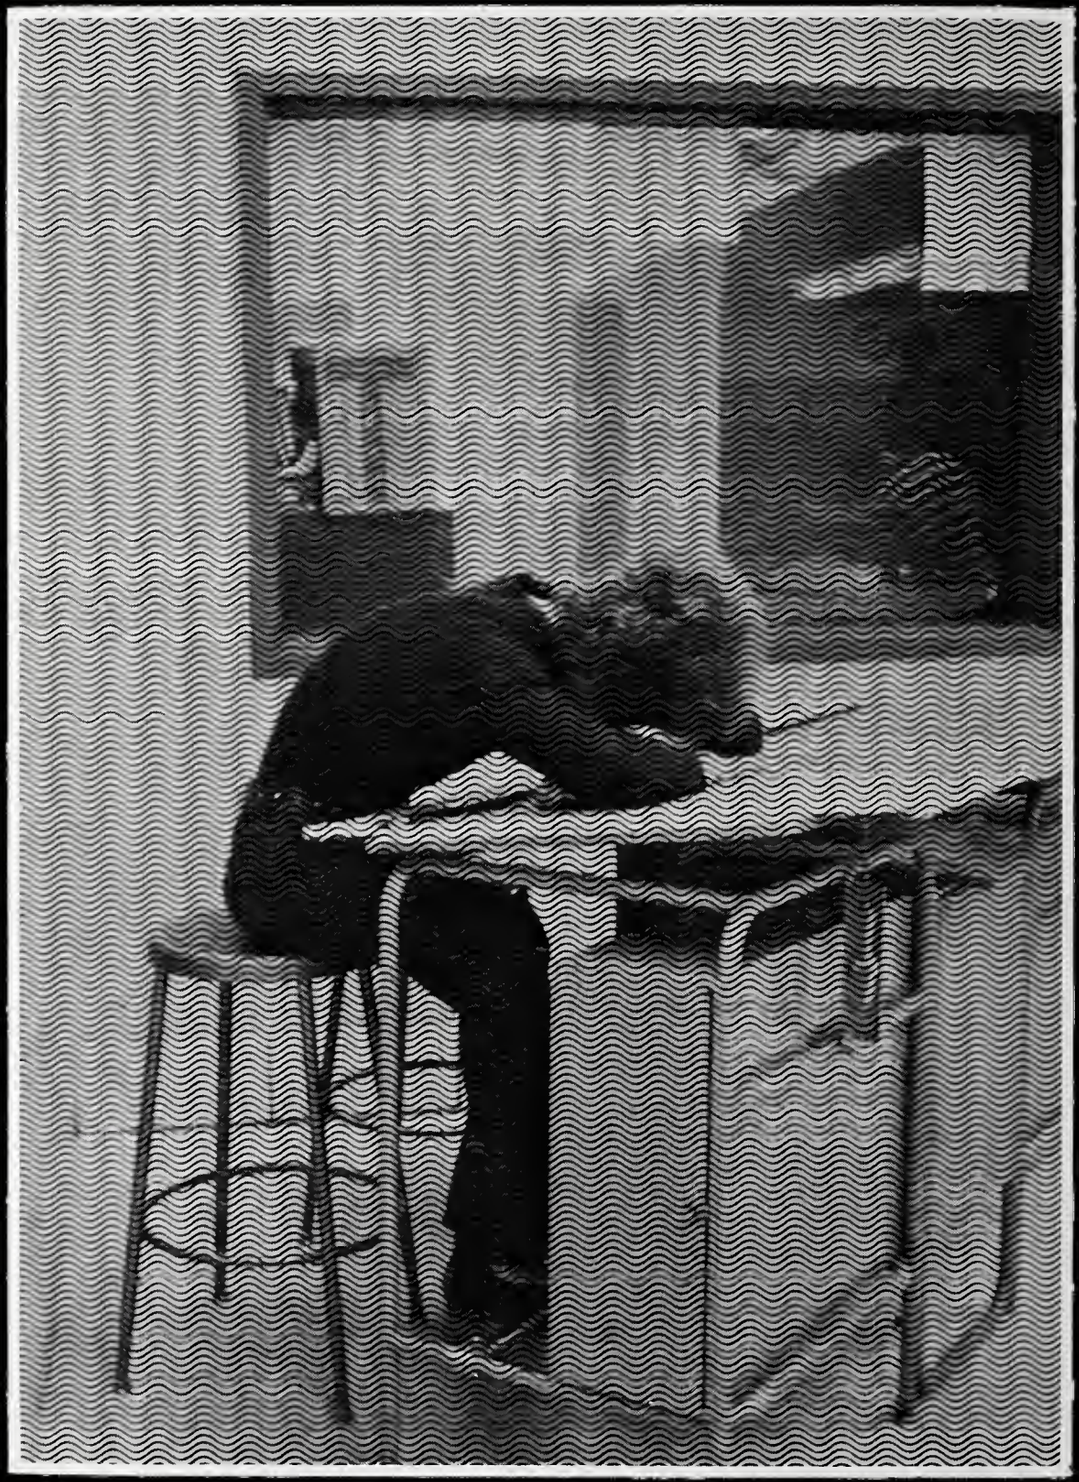
THEME — Mary Reed, Dave Benson, Mr. Ewing

The band was much better than last years. I was surprised that almost everybody danced. I think the decorations were beautiful and the band was great. (Tony Blomeke) . . . The food was real good and there was plenty of it. (Greg Shippy) . . . I really thought that the hypnotist did a nice job with the kids. It was fun to watch all the kids who were under. (Pat Costin) . . . I think everybody had a good time. (Randy McIntosh) . . . I still can't believe that we decorated two whole months for one little night! But I have to admit it was worth it. (Kay Christlieb). . . After all the hard work, time, money, and effort invested in the prom, I'm glad it was a success. (Jody Witherspoon) . . . The weekend rain did not dampen any spirits! (Denny Smith) . . . I never knew Debbie Beber was such a swinger! (Anonymous) . . . The food at the Prom was decent. I'm glad it was a serve-yourself type thing. (Randy Surfus) . . . Tom Wiley highlighted the weekend at Wawasee by diving off of a raft that was on shore. (Holly Fargo) . . . I was messing around. (Tom Wiley)

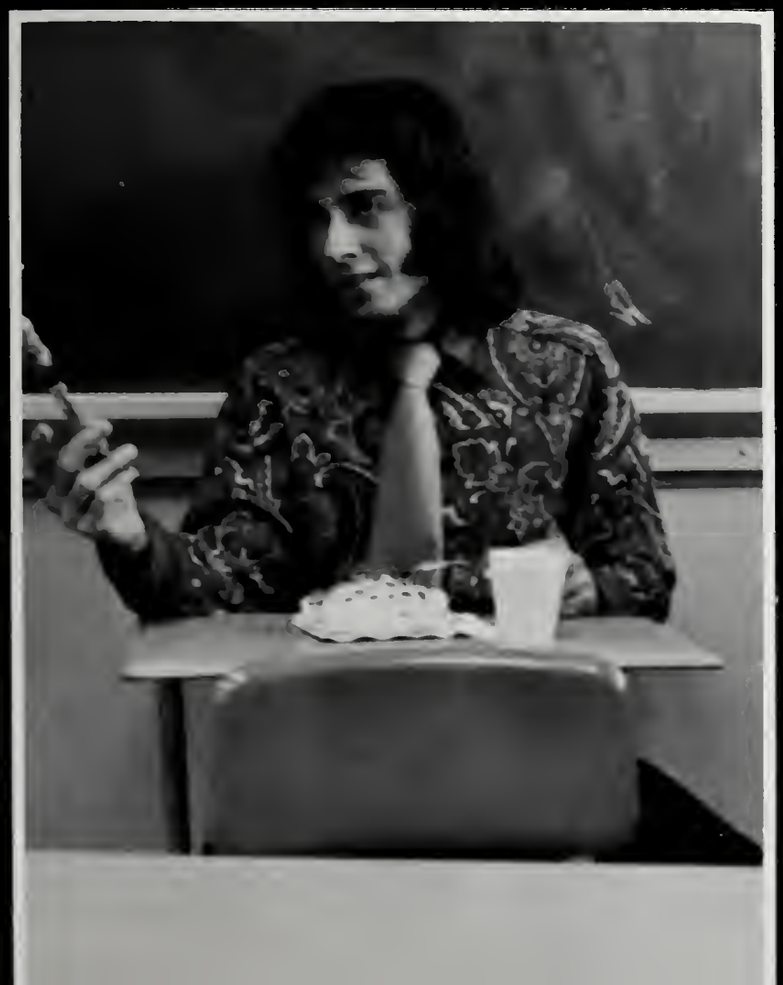
LUNCH — It's more like a snack to me. (Tony Blomeke) ... I'm glad there is an ala carte line, but I think it needs a little more variety. (Anon.) ... SMOKING — The students should have privileges of smoking in at least the student lounge. No facilities are given towards the student concerning this, but just strict regulations against it. (Anon.) ... Why don't they put ashtrays in the restrooms? (Anon.) ... DETENTIONS — I like the little pink slips. There's something about them that makes everyone go crazy. (Anon.) ... It's all right as long as you can bring a friend along. (Denny Boice) ... PARKING LOT — It needs improved badly. It's a good place to park if you want to go out at noon and find your car buried up to its axel in mud. (Kay Christlieb) ... It's too small for the amount of car driven to school. (Brent Steigmeyer) ... It is so destitute, so muddy, so holey and hilly that it is rented to NASA for test lunar landings. (Mark Zimmerman).

Having the restrooms closed kinda made me mad. There were times when I had to go to the john between classes and I had to walk all the way from the junior high to the corner and back again making me late for class. (Doug Shenk) . . . I can remember last year when spring came around, and we could no longer play basketball in the gym. That got to me. I think that's what I like about the present administration. These guys understood that we like to play even in the spring, so now we play; it isn't like last year when there was nothing to do before class. (Walt Goldsbery) . . . I think playing basketball before class in the morning puts me in the right frame of mind. Playing basketball wakes me up and gets me going. (Dave Luellen) . . . I enjoyed the pep sessions this year when the administration and teachers got a pie in their face or dunked in a pool of water. (Mike Krocker) . . . Pies in the face and getting dunked were clever ways to get the kids to yell at the pep sessions, and I feel the team enjoyed them too. (Sheila King) . . . I was glad when there was no more home room except on Wednesdays. Now I have more time in bed. (Mike Walton).

WHAT GHS THINKS

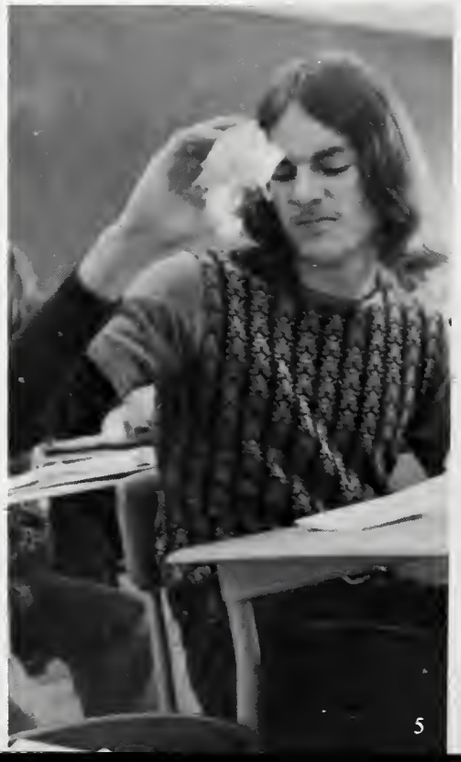


ABOUT CURRICULUM



"Semester Classes Are An Advantage to Students."

(1) — Mrs. Mellott and Mrs. Van Leuven get involved with the students, which gives them that certain knack of making their 7th grade English exciting and unusual. (2) — Mike Gentis adds some excitement to the new Literary Exploration course as he enacts his own interpretation of a short story by Edgar Allen Poe. (3) — Group sessions play a major role in the learning experience of Journalism, as Mrs. Feightner directs the class. (4) — Renee Shuff has her own way of displaying her acting ability, as she places herself INTO the part during theatre arts class. (5) — Comp I seems to be quite a problem for Jim Magnuson as he wads up the rough draft of his theme and heaves it toward the basket for two points.



. . . The most important thing I've learned in English class this year was to be able to get in front of a crowd and speak half-way intelligently. (Bobbie Finn) . . . The new English system is great because you can take a variety of courses in one year. (Paul Surfus)

"Latin and Spanish Live Today — in a Culture, As a Language"

Latin is not dead for it lives in other languages which derive a part of their vocabulary from Latin. It also lives in the heritage it has given us. (Cathy Cobbs) . . . Latin is prevalent in the scientific and medical fields which will help me after graduation. (Anon.) . . . I decided to take Spanish because I wanted to learn a language that can be used in traveling. (Anon.) . . . The new Spanish tapes help me for I can hear things the way they are supposed to be and then do it the right way myself. (Martha Bonkoski).

(1) Doing board work is a good way for Toni Ellert to increase her knowledge of Latin. (2) Translating English to Spanish is easy for Paul Rassel. (3) Becky Houser uses the new tapes to help her with her Spanish. (4) Humphrey Kearns seems to be enjoying his studies during Latin IV. (5) The Spanish students bid Miss Myers adios with a farewell cake.

"Home Ec Will Help When I'm on My Own"

I like cooking best because I like to work in kitchens. (Debbie Hammond) . . . I like sewing better cause it doesn't make me fat. (Janet Walton) . . . I've learned if you follow directions things will turn out better. (Brenda Daley) . . . I think changing to 1 semester courses is more interesting. (Sue Westrick) . . . I think there is a lot to know about sewing (Karolyn Combs)

2

(1) Coloring cloth is a new experience for these girls in Home Ec. (2) Jan Dove samples a piece of cake to see if it's good. (3) Rosemary Henderson carefully cuts away loose threads from her material. (4) Following directions is very important in cooking.

4

"Agriculture Means Learning to Serve . . ."

2

Agriculture teaches you about the farm and how to grow and harvest better crops. You learn to take care of farm equipment and animals. (Kevin Snook) . . . The most important thing I've learned about agriculture is learning to do, doing to learn, learning to live, and living to serve. (Dan Hippensteel) . . . If cows get out of line, bust their heads. (Jeff Gillispie).

3

(1) Larry Ashbaugh instructs his eighth graders. (2) Bill Madden carefully examines this pup. (3) Pat Penland, Mike Creager, and Mike Leech model their F.F.A. jackets. (4) Steve High, Kenny Charles, Randy Hampshire, and Kevin Hull listen carefully to the discussion.

"Singing Brings Out My Best"

. . . When choir started, everyone sang out of tune and did nothing together, but since Miss Doyle has come our choirs have improved immensely. Both the Prep Choir and the Concert Choir sound more unified and have a much better tone. Besides all of that, Miss Doyle has made the kids more enthusuastic and the course more enjoyable. (Anon.) . . . I took choir because I enjoy singing because it is the only way I can express my true feelings. (Anon.) . . . Choir brightens up my day because singing brings out my best. (Anon.)

(1) — Pep Choir: ROW 1, M. Riccuis, D. Barger, K. Clady, Director Miss Doyle, M. Woods, K. Quince, L. Asher, S. Omspacher, F. Klinger, S. Griffin, T. Burniston, J. Brandt, Y. Picklesimer, M. Gentis, S. Kelham. (2) — Talented Larry Asher plays the piano for the choir during the convocation. (3) — The bass section adds harmony and depth to the prep choir. (4) — Taking over the position of director, Miss Doyle formed two choirs and improved each in depth and tone quality.

(1) — Members of the choirs helped make the musical Hello Dolly a success. (2) — Adding some excitement to school, Concert Choir sings for all. (3) — The altos of the Choir add harmony to add the finishing touches. (4) — ROW 1, K. Burniston, C. Cox, S. Shirley, M. Riccuis, J. Tetzlaff, S. Griffin, T. Koskie, A. Placencia, Director Miss Doyle. ROW 2, D. Runion, J. Dove, J. Brandt, V. Tageson, G. Kleeman, L. Souder, O. Lillie, K. Christlieb, T. Wiley, C. Hall. ROW 3, E. Jones, B. Beber, L. Asher, M. Krocker, G. Carr, K. Van Allen, H. Mortoff, M. Walton, M. Gentis.

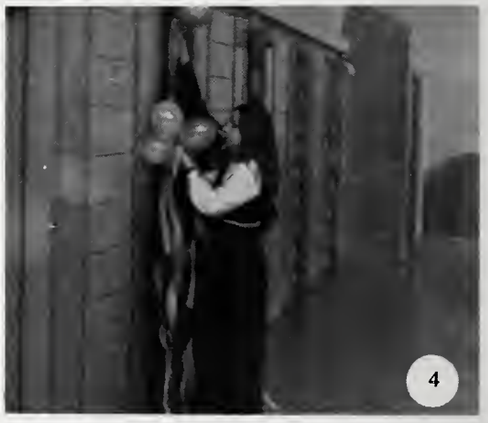
"Band — A Great Way to Start a Day"

One of the best things about the band is that we get to play at the football games. (Bill Cornewell) . . . Playing music in the mornings is a great way to start off the day. From there on everything seems to go just perfect. (Mike Gentis) . . . I enjoy band because it is a way that I can express myself through music. (Tom Wiley) . . . I have only one complaint about the band course: I wish that we could play more modern songs. (Steve Mavity)

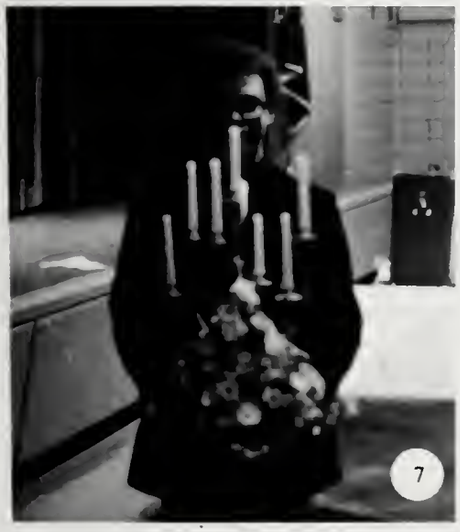
(1) — ROW 1, D. Lampe, V. Sipe, B. Smith, L. Housel, T. McPheters, T. Wiley, B. Rugman, P. Kinsey, M. Wilmot, S. Refner, C. Sigler. ROW 2, D. Ray, B. Yarde, P. Driver, B. Dennison, D. Jones, R. Treesh, M. Reed, R. Osten, D. Walker, D. Claxton, M. Phister, V. Sorenson, B. Fry. ROW 3, M. Tarlton, R. Bixler, D. Rowe, C. Shaw, L. Dirr. ROW 4, M. Carper, R. Workman, S. Mavity, M. Gentis, B. Cornewell, Director Mr. Branam. (2) — The orchestra especially chosen for Hello, Dolly added much to its success. (3) — Adding excitement to the basketball games, the pep band plays one of their halftime numbers.

(1) — Under the direction of Mr. Branam, the Garrett band performs at halftime for the community. (2) — Senior band officers Tom Wiley, Mike Gentis, and Debbie Lampe choose the musical selection for the band. (3) — Mr. Branam directs the band during a convocation performed in front of the student body. (4) — The brass section, headed by Ray Osteen, gives the band its depth and quality.

"Learn As You Earn"



D. E. is a good course because I can be at work receiving training instead of taking all class courses at school that may not help me. (Peggy Combs) . . . D. E. is a great help to me as far as my schooling is concerned, but the reason I took it is because I like working with people. (Gary Bergner)



(1) — D. E. student Randy Mueller works part-time at his father's gas station. (2) — Gary Crabill gets experience selling bicycles as he works at Wyatt's during the afternoon. (3) — Carla Andrews sells clothes at Grants. (4) — Carla Andrews prepares for the Vocational Banquet. (5) — Marie Tackles corrects insurance forms daily. (6) — Peggy Combs also works at Wyatt's, only she works in the office. (7) — Both Gary Bergner and Greg Jones work at Electric Motors. (8) — D. E. student Dave Andrews stands proudly at the Vocational Banquet.

Students Meet Math's Challenge

... Math — A fluctuation of numbers, terms, and facts to receive what I want from an equation. (Mike Esselburn) ... Math isn't always easy, but you feel you've learned something when you've finished the course. (Kevin Malcolm) ... Math provides for understanding. (Mary Reed)

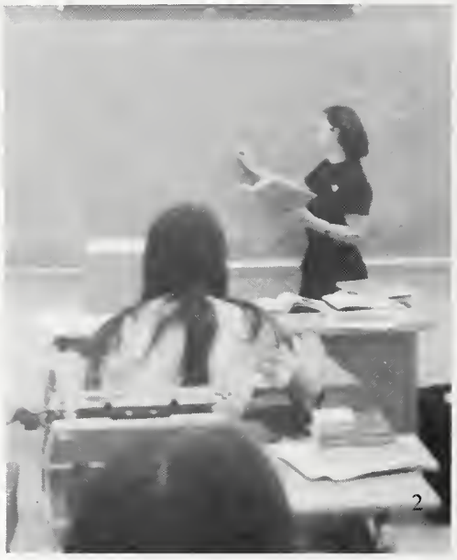
(1) — Algebra I proves to be a different kind of math to the incoming freshmen. (2) — Frank Caprino displays what he has gained from being a four year math major. (3) — Karen James finds the number system a cinch as she places her answer of the board. (4) — Mr. Capin provides his students with the knowledge of where Geometry will help them. (5) — Mr. Neal teaches a range of students; frosh — seniors.

"Science Explores Unknown"

1) Mike Esselburn and Mark Barcus listen to Mr. Hunter's explanation of the Bunsen burner. 2) Dave Lash sets up the physics class science demonstration at the science fair. 3) Biology students Mary Koehl and Sue Chesterman take a peek at the planeria. 4) Janice McCorkel explains the physics demonstration to a science minded seventh grader. 5) Penny Seffernich awaits the judges with her project. 6) Mrs. Seffernich looks on as Penny displays her science project.

I think that science is interesting and it allows me to venture into the unknown. (Mary Koehl) . . . I liked the experiment with the wave motion machine, or as some of us call it — a slinky. (Mark Michael) . . . I think I will use what I have learned in college and when I teach science. (Ron Kock)

Teachers Make Business Great

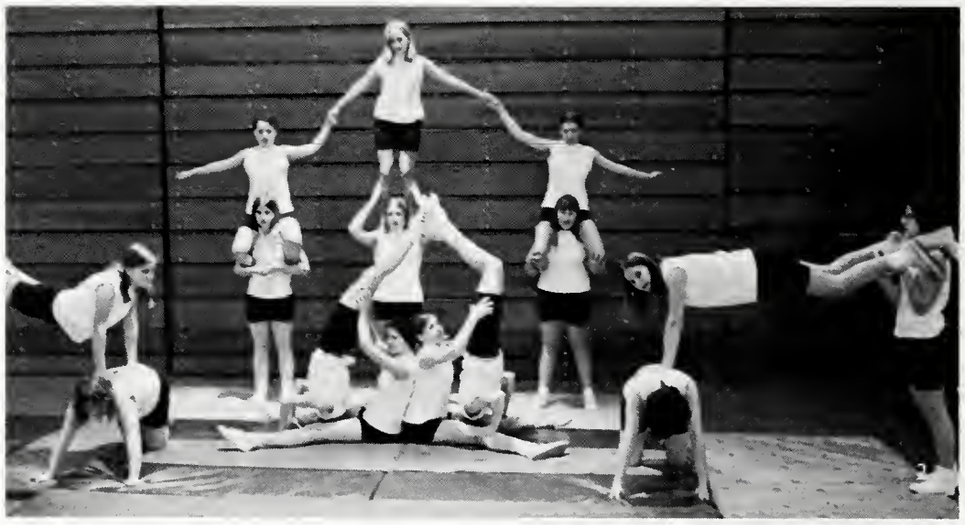


I learn a lot in Bookkeeping because it is interesting, and it is something that could be helpful throughout life. (Cindy Steigmeyer) . . . Business lab gives you experience in the different types of office jobs. (Diann Jones) . . . I feel that the business courses Garrett offers are fine, and there are enough courses to provide a person with the knowledge he needs to prepare for his future. (Cindi Smith) . . . Business lab helps train people for their future careers. (Kim Strock).

(1) — Mr. Stomm explains fundamentals to his Bookkeeping I class. (2) — Students in Shorthand I take notes as Miss Eldridge reviews characters on board. (3) — Anita Fetter transcribes a letter on the dictaphone. (4) Business Lab makes its T.V. debut. (5) — Mrs. Doss explains payrolls to Marie Ballentine, Chris Thrush, and Sandy Chittenden in Business Lab. (6) Mrs. Doss greets her guest from WANE T.V. (7) — Randy McIntosh strives for 40 words per minute in personal typing. (8) Debbie Hoeffel takes a message for Business Lab class. (9) Chris Thrush used her typing skills to finish a letter in a short time. (10) Mrs. Doss chats with Mr. Puff in her spare time. (11) Renee Shuff takes some time out for a break, as Debbie Lewis studies on.

Exercise and Health Contribute to Our Well-Being

I feel that the rules for dressing and showering are methods of teaching. We dress alike to create an atmosphere of equality and to promote cooperation. Showering teaches and also insures personal hygiene. (Jamie Wise) . . . I feel that identical gym suits take away a person's identity. (Maureen Moran) . . . I really feel that GHS should have co-ed physical education classes. (Kim Oster) . . .



(1) — Sophomore boys engage in a basketball thriller, as Ron Shafer and Mrs. Kochert look on. (2) Freshman girls experiment with different types of gymnastic arrangements. (3) — Steve Walton concentrates as he attempts a free throw in gym class. (4) — Theresa Krocker displays spectacular talent on the trampoline as Robin Lange and Kay Folden watch attentively.

Social Studies Helps Explain Problems of Today

I think the Social Studies department could be improved by taking more field trips to historical places in Indiana and by showing more films and movies. (Mike Esselburn) . . . My favorite topic in U.S. History is the time era from World War II to the present, for it relates more to us, our lives and our present-day problems. (Jody Witherspoon)

1) Mr. Smith answers the questions of eager seventh graders. 2) Politicans now have Mr. Finchum's Civics class going round and round 3) Kim Shumway, Kay Christieb, Kay Perkins, and Teri Wiley use their acting skills in Mr. Whitehead's class. 4) Laurie Derickson and Debbie Wells work in a group discussion during Miss Lotz's history class. 5) Mr. Finchum's current events class loves those newspapers.

"You Use Both Hands and Head in Industrial Arts"

Woodshop is great for a person who likes to work with his hands. You can be creative and make things that you feel would benefit you. (Wayne Rowe) . . . I like auto mechanics, for you get your hands dirty while you are learning. (Gary Carr) . . . In woodshop you have the pride of showing something you made by yourself instead of going to the store and buying something 100 other people have. (Rich Workman) . . . I like metal shop because you are more free and you can use what you learn out in life. (Ken Cutler) . . . Drafting is useful as a supplement to my art. (Denise Jinnings)

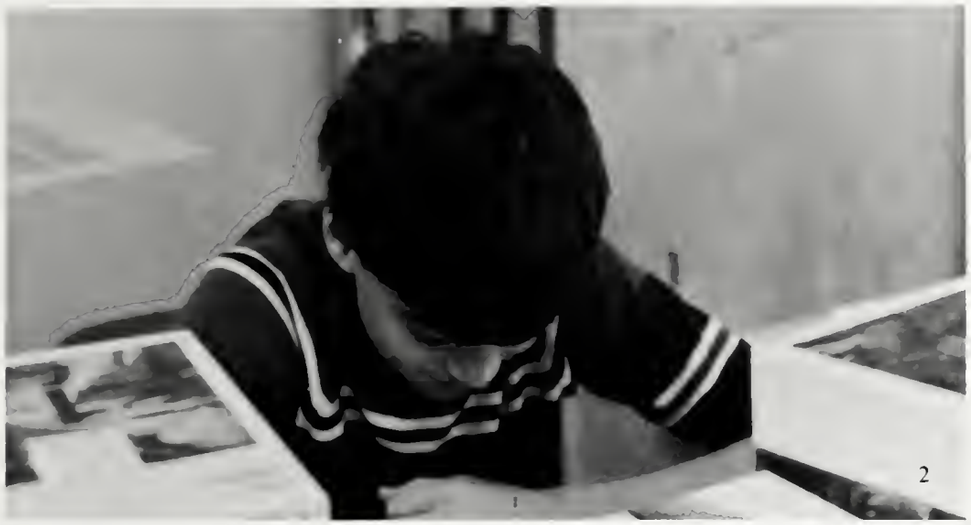
(1) — Maurice McPheeters masters the art of grinding. (2) With the help of an Angola student, Lee Kneeland tries to fix a carburator. (3) — Mike Gerhardt uses the jointer to smooth his wood. (4) — During auto mechanics, Rey Placencia works at putting in a brake drum. (5) — Gary Carr hunts for the tools he needs. (6) — Drilling is only one of the many jobs Ken Cutler learns in metal shop. (7) — Mr. Ordas keeps busy during class, too. (8) — Drafting students check their drawings. (9) — In metal shop Dave Derickson begins work on his project.

"Art Is Expressing Your Feelings"

Art is an expression of ones feelings (Rick Workman) . . . It's releasing your inside feelings (Eric Streets) . . . It's the way a person expresses himself (Judy Maloney) . . . It's the way something looks to you (Julie Manuel) . . . It's a thing of beauty. (Lee Osteen) . . . Any creation in any form (Carrie Custer) . . . Art is having ideas and letting people know what they are in your own way (Steve Harmon) . . . Art is using your imagination (Alisa Reed).

(1) The seventh graders Julie Manuel, Barbra Hilagass and Jeff Mellott show their skills in hand building. (2) Franz Heinzerling expresses his talents using slab building and thrown shapes with clay. (3) Joe Thomas says, "Steady now" while he smooths out his project made of slab building.

"The Clubs in Special Ed Are a Benefit to Me"



I think Special Ed. should include a class on current events because we could benefit from learning about what is happening in today's world. (Anon.) . . . My least favorite subject is math because I don't think it's of any use to me. (Hellen Fugate) . . . I think we should talk more about drugs for it is a big problem today. (Debby Derrow) . . . English is a great course in Special Ed. (Anon.)

(1) David DeConick is preparing for the days lesson. (2) Dan Hataway works diligently on his math. (3) Helen Fugate and Debbie Hofferman are in deep concentration. (4) Randy Freeman helps Mr. Robinson put the materials away.

WHAT GHS THINKS

ABOUT INVOLVEMENT

Student Council Gives Students a Chance to Speak

The main purpose of Student Council is to serve as a go-between between the administration and the students. (Beth Hollis) ... Student Council is a worthwhile organization because it gives the students a chance to speak out. (Kim Dove) ... I think the Council should elect students according to those who truly want to be a part of it and would enjoy participating in it. (Cindy Steigmeyer) ... The Council has sponsored the Homecomings, mock elections, and Little 500. (Pat Costin) ... Student Council accomplishes more during the year than it is given credit for. (Mark Michael)...

(1) (ROW 1) Cindy Lash, Lori Kleeman. (ROW 2) Pat Costin, Sharon Knechel, Marilyn Miller, Bekie Dennison, Lori Malargik, Alisa Reed, Debbie Wiley. (ROW 3) Tom Mortoff, Howard Smith, Maureen Moran, Jeff Mellott, Brenda Bergner, Marcia Steigmeyer, Jeff Sprout, Beth Hollis, Mike Stockard, Fred Sawyer. (ROW 4) Scott Kimmell, Steve Krider, Kim Dove, Mike Esselburn, Norman Runion, Jeff Krider, Kim Thorne, Larry Zecca, Eddie Tittle. (2) Sponsor — Mr. Hutton, and the officers of Student Council: President Frank Caprino, Secretary Rosie Mansfield, Treasurer Mark Michael, Vice-President Marc Barcus.

Gymnastics Promotes Individual Achievement

Gymnastics has taught me the importance of working with others so that others can help me improve. Gymnastics also helps me keep limber and develop strength which is important in any kind of sports. (Sue Letizia) . . . The main purpose of grymnastics is for each individual to work at his/her own rate of speed to achieve a goal. It also helps to apply one's self mentally as well as physically. (Dick Barry) . . . I joined gymnastics to improve and perfect my abilities, but mostly because I like the activities that the club offers and I enjoy the challenges. (D. Spicer)

(A) Amy Pence practices on improving her skills on the trampoline. (2) FIRST ROW — David Spicer, Dick Barry, Eric Schurr, Sandy Tackles, Karen Parker. SECOND ROW — Jody Witherspoon, Sarah Mavity, Sue Letizia, Jahni Brandt, Amy Pence. THIRD ROW — Dan Summer, Ray Osteen, Jeff Gillespie. (3) Steve High demonstrates his talent on the trampoline.

NHS Members Proudly Graduate With Gold Tassels

I was selected to be a member of National Society on a basis of leadership, scholarship, service and character. (Karen Gentis) . . . I'll be proud to wear a gold tassel when I graduate. Headaches + Decisions + Deadlines = Aeolian Staff

When I started as a student photographer I thought it would be real easy to go around snapping pictures of people, but now I know there is more to photography than just that. It takes an enormous amount of work to get just one outstanding photo, but I would say the task is well worth the effort. (Yogi Picklesimer) . . . Working on the Aeolian was harder than I expected, but I still enjoyed it. Hard work is an important part of a good yearbook. (Joyce Schultz) . . . Working as section editor is hard work, but it has its awards — seeing your own ideas in black and white. (Jody Witherspoon).

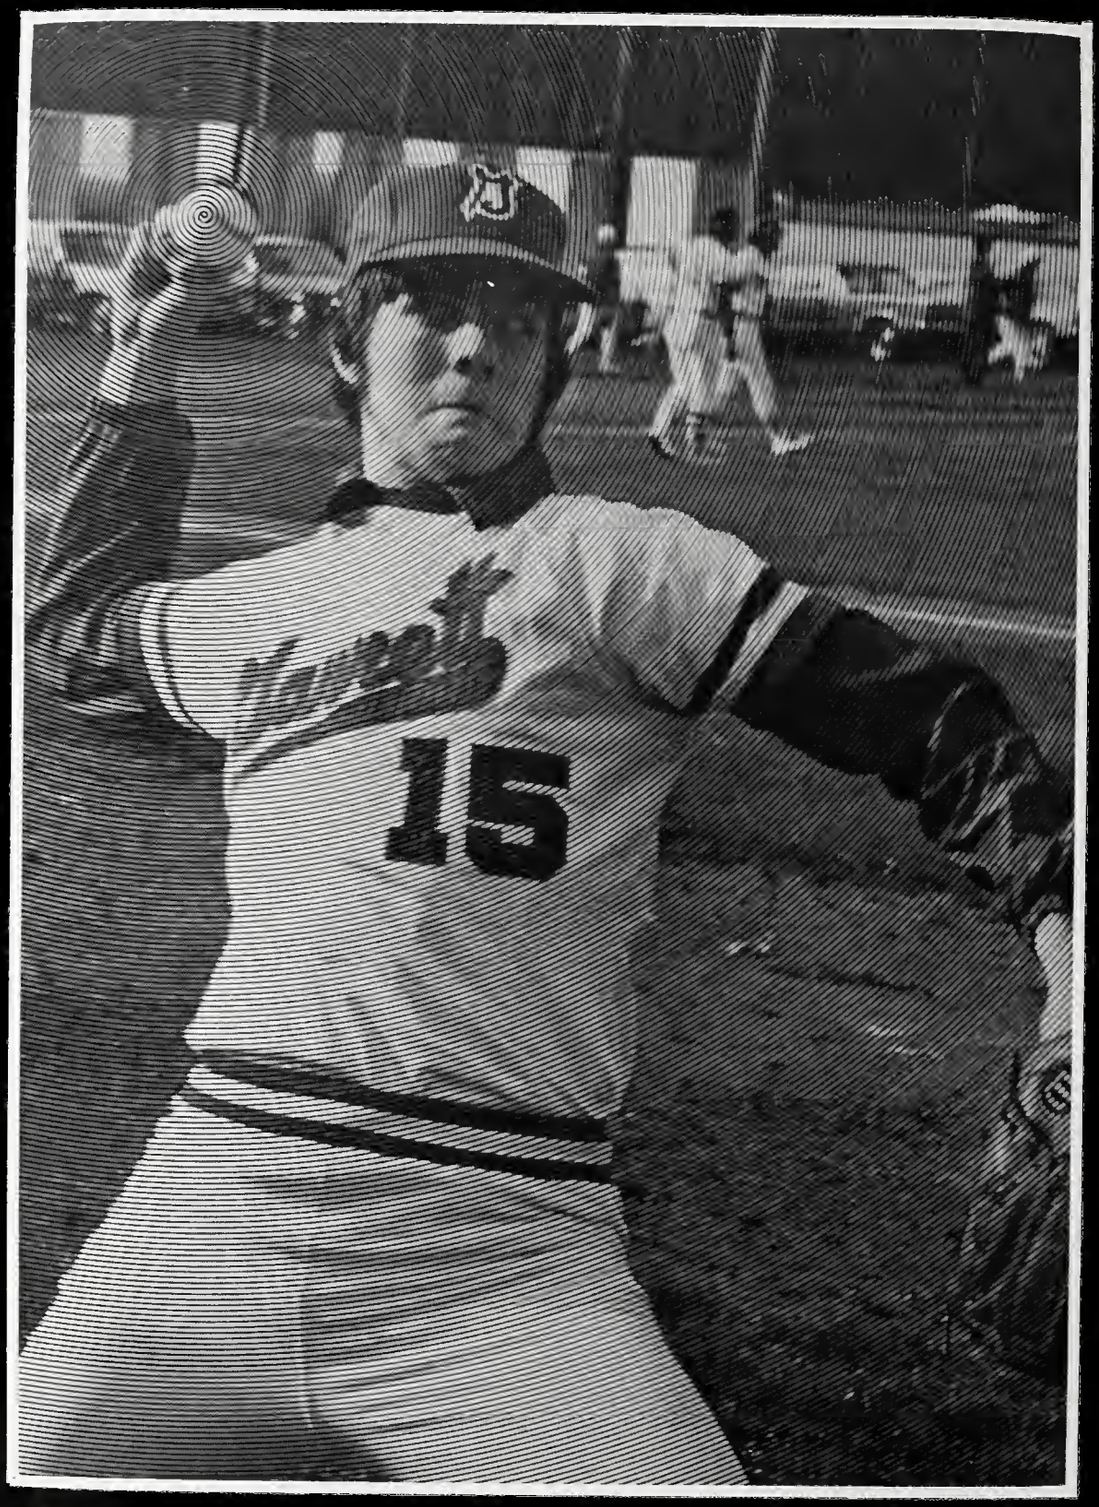
WHAT GHS THINKS



ABOUT COMPETITION

Garrett Captures NEIC Championship for 1972

I thought the Columbia City game was the most important game because the conference was at stake. When we won the conference I felt like I was in heaven because we all wanted it so bad and just decided we would do anything to win it. With everybody giving their all, the good coaching, we knew we couldn't be beat. (Tom Newman)

Last year's team had more spirit and talent, but this year's team had more togetherness and desire. The NEIC title gave Garrett a good reputation and a tradition to hold on to for the coming years. The coaches and the players got along very well this year and the practices were a lot different than last year's because of the quality of the team. My biggest challenges this year were to win the conference and to get selected to the all conference team. (Greg Shippy)

I think Mr. Hutton and Mr. Wiant were the main reasons we won the conference since we didn't have an overbundance of talent. The coaches put desire in us. Hard work, desire, and cooperativeness between coaches and players make up a winning team. I liked the ruling on overtime because we won the Angola game in overtime which we needed to win the conference. The biggest challenge to the team as a whole, was to win it last year when we were expected to. (Ron Kock)

Most of the time the team and coaches got along real well. The team got along extremely well. We were a close team. I liked the new overtime ruling because we won the only overtime game we ever played. It's best to be a winner or loser, not something in between. Pride is the main quality that makes a good team. On the front of our practice jerseys the word PRIDE was printed. (Frank Caprino)

It was a great season! (Spot)

Grid Iron Men End Season With Good Record

If it wouldn't have been for the new overtime ruling, we probably wouldn't have won the conference. Last year's team was probably bigger and had more potential, but a couple of key injuries at the wrong time caused us not to win. The NEIC meant a great deal to me this year because it was our last year for playing. (Randy Surfus).

The boys followed rules and directions well this year and we didn't have too many problems. I think the most challenging task this year was to win the conference and we did it! The most important game this year was the Columbia City game as that was the game that the championship rested upon. The new overtime ruling was an advantage to us. The Angola game, which we won in overtime, was an important game that pushed us on our way to winning the conference. Some of the guys didn't think we had the talent that last year's team had, but this years team had the pride and desire which helped them to gain prestige. (Mr. Hutton)

Garrett Reserves of 72 Show Promising Qualities for Future Years

We had a pretty good season because the bench was kept warm. (Andy Dircksen) Practices would have been easier if the Seniors wouldn't have given us a hard time about being junior varsity. (Steve Tarlton)

The best part of the season was the meat squad, when the varsity played the reserves in scrimages. (Steve Walton)

Practices were rough but they paid off during the season. (Bob Flanagin)

The backfield was always messed up and the quarterback never knew what he was doing. (Mark Zimmerman)

The coach was fairly rough on us but it helped us to make the season a successful one. (Larry Zecca)

The Garrett reserves of '72 possess nearly all the qualities of becoming a great football power in the future seasons. Their main attributes are ones of size and speed. Averaging 200 poinds across the line as reserves, these young Railroaders will have the credentials to provide Garrett with a dazzling display of excellent gridiron in the '73 season. (Coach Wiant)

Freshmen Have Spirit and Determination. There Is a Good Team in the Making!

Eastside was the most important game to me this year because the team finally won a game and I finally got to play. (John Blomeke)

In the practices we had good drills to build our bodies and minds and good talks with the coaches to learn more about the game of football.(Pete Wade)

The Eastside game was probably the most important game to the team because we had not won any games yet this year. We had tied some but this was our chance to prove ourselves to be a good team. Practices were hard, too, but I guess you need hard ones if you want a winning team. (Matt Ellert)

The most important game was East Noble because it showed we could take anyone if we tried. (Kevin Hull)

The practices were hard but worth every minute of it. Good, hard practices make a good football team. (Bob Ewing)

"Basketball Means Just About Everything to Me."

Fantastic is one word that describes basketball this year at Garrett. (Paul Yarian) ... My most difficult task is running in practice. (Mike Gerhardt) ... Future basketball at Garrett looks pretty bright if some people work at it. (Greg Shippy) ... The coach gets me to work by threatening us once in awhile with the possibility that we will be running sprints all through practice. (Randy Worden) ... Discipline is OK but I don't think the length of the hair makes the player. (Dave Lash) ... The most difficult task for me is getting my ankles taped. (Greg Shippy) ... B-Ball is valuable here because the school would be a very dull place without it. (Randy Worden) ... The coach gets us to work by putting us "on the line." (Dave Lash)

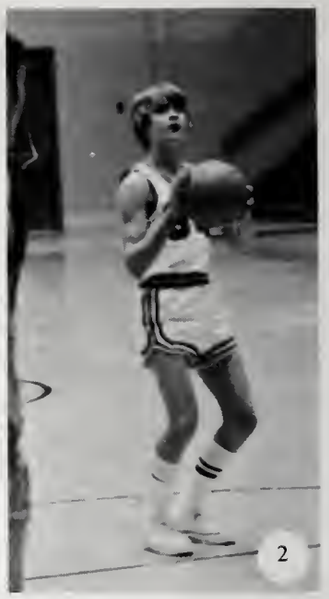
(1) Kevin Derrow, Ken Haynes, and John Blomeke are working hard figuring up the statistics for Coach Byrd. (2) Randy Worden is poised in anticipation as Greg Shippy shoots a free throw. (3) Randy Surfus throws the ball in bounds after a basket was just made by "them" (4) Gerhardt leaps high into the air trying to get the tip to one of his teammates. (5) Coach Byrd is trying to expalin what to do in the second half with the help of a piece of chalk and a blackboard. (6) Mike Gerhardt, Brent Steigmeyer, Randy Miller, Tim Wheeler, and other players watch the game. (7) Paul Surfus leads the way breaking through the paper covered rim onto the floor. (8) Coach Byrd offers some helpful hints to the players.

"Work Describes Basketball This Year at GHS."

This year's team wasn't that bad considering the fact that there were few players returning with varsity experience ... I've played basketball every day since fifth grade. I love the game that much ... The most difficult thing for me this year was to find the five best players to put on the floor ... The team could have been better if the shooting had improved ... The game I'll remember was the first one that I coached when we won on a basket with five seconds left ... Basketball builds character besides providing entertainment ... Next year you have to pick Garrett to be tough. (Coach Byrd) ... Basketball means entertainment and a lot of running to me because I like competition. When you compete and come out on top you feel good. (Dave Lash) ... The coach's discipline is fair but sometimes he expects too much. (Greg Shippy) ... Right now, Garrett basketball is trying to get better, and in the future it will be even better. (Randy Worden) ... Basketball means fun. (Dave Lash).

Reserve Team Promotes a Competitive Spirit



The hardest task for me is getting in the game. (Ron Shafer) ... To me b-ball means sweat, not too much blood and very few tears. (Paul Rassel) ... Basketball is valuable at Garrett because it gives us better things to do on Friday and Saturday nights other than getting into trouble. (Kim Oster) ... Mediocre describes b-ball this year at Garrett (Ron Shafer) ... To get me to work the coach says run and I do it. (Paul Rassel)

Frosh Finish Respectably

The coach gets me to work by giving me confidence in myself. (Matt Ellert) ... The most difficult task for me is playing a defense called forward denial. (Tim Smith) ... Next year I predict that we will have a better year because we keep improving more and more. (Tim Wilcox) ... One word that describes basketball this year at Garrett is "without." (Tim Wilcox)

C-Team Gains Experience

Basketball means both fun and hard work. (Ron Shafer) ... I feel that next year Garrett should be tough because of our height and experience. (Loren Dove) ... Basketball is rewarding to me because you get to know the guys and coaches better. (Dan Kinsey) ... I do what the coach says because everyone knows he is a tough dude. (Paul Rassel) ... Students Show Railroader Spirit in Many Ways

Working on concessions was really quite a lot of fun even though you could sometimes get quite aggravated at some of the customers. (Geri Kleeman) ... The pom-pom girls didn't do alot this year except get organized. Next year should be better. (Johni Brandt) ... I really like being a batgirl for it was a good way to help out the team. (4) The Railettes keep busy in the concession stand.

Fore! Here Comes the Garrett Golf Team

I would recommend golf for other students only if you enjoy the game and can adapt to different courses. (Mark Michael) . . . The most difficult part of the game for me is keeping my cool after a bad shot. (Ron Kock) . . . I went out for golf because it's easy, relaxing, and stimulating when I smash those stupid little white balls. (Paul Rassel) . . . I would recommend golf to most students depending on how coordinated the student might be. (Steve Walton) . . . The funniest event this year was when Steve Walton missed his ride to the DeKalb meet. (Tom Kleeman) . . . I went out for golf because I like to play golf and I enjoy meeting other people-boys. (Pam Kinsey) . . . Winning only one match this year was unusual. (Ron Kock) . . .

"You Gotta Be Animal to Be on This Team"

I believe this year's track squad was much better balanced, and our record was better than last year's regular season record even though last year we had the services of a state track champion. (Stan Whitehead) . . . Track is hard work, but this year we found out that it also could be fun if you went about it right. (Tim Wheeler) . . . Mile relay team, iron jock, hard work, green dribblies, and oh, yes, you got to be animals to be on this track team. (Tom Newman)

Girls and Boys Intramurals

Provide Enjoyment for G.H.S. Youth

. . . I liked Intramurals because it gave the girls a chance to play in sports, and I think it is terrible that girls haven't gotten sports to participate in any earlier than this year. (Joyce Schultz) . . . Intramurals keeps me out of trouble at night and also my team was the Soph.-Frosh. champ. (Ron Blotkamp) . . . I enjoyed the intramurals because I got to play and display my talents rather than just sitting the bench as I do in other basketball. (Mark Pfefferkorn)

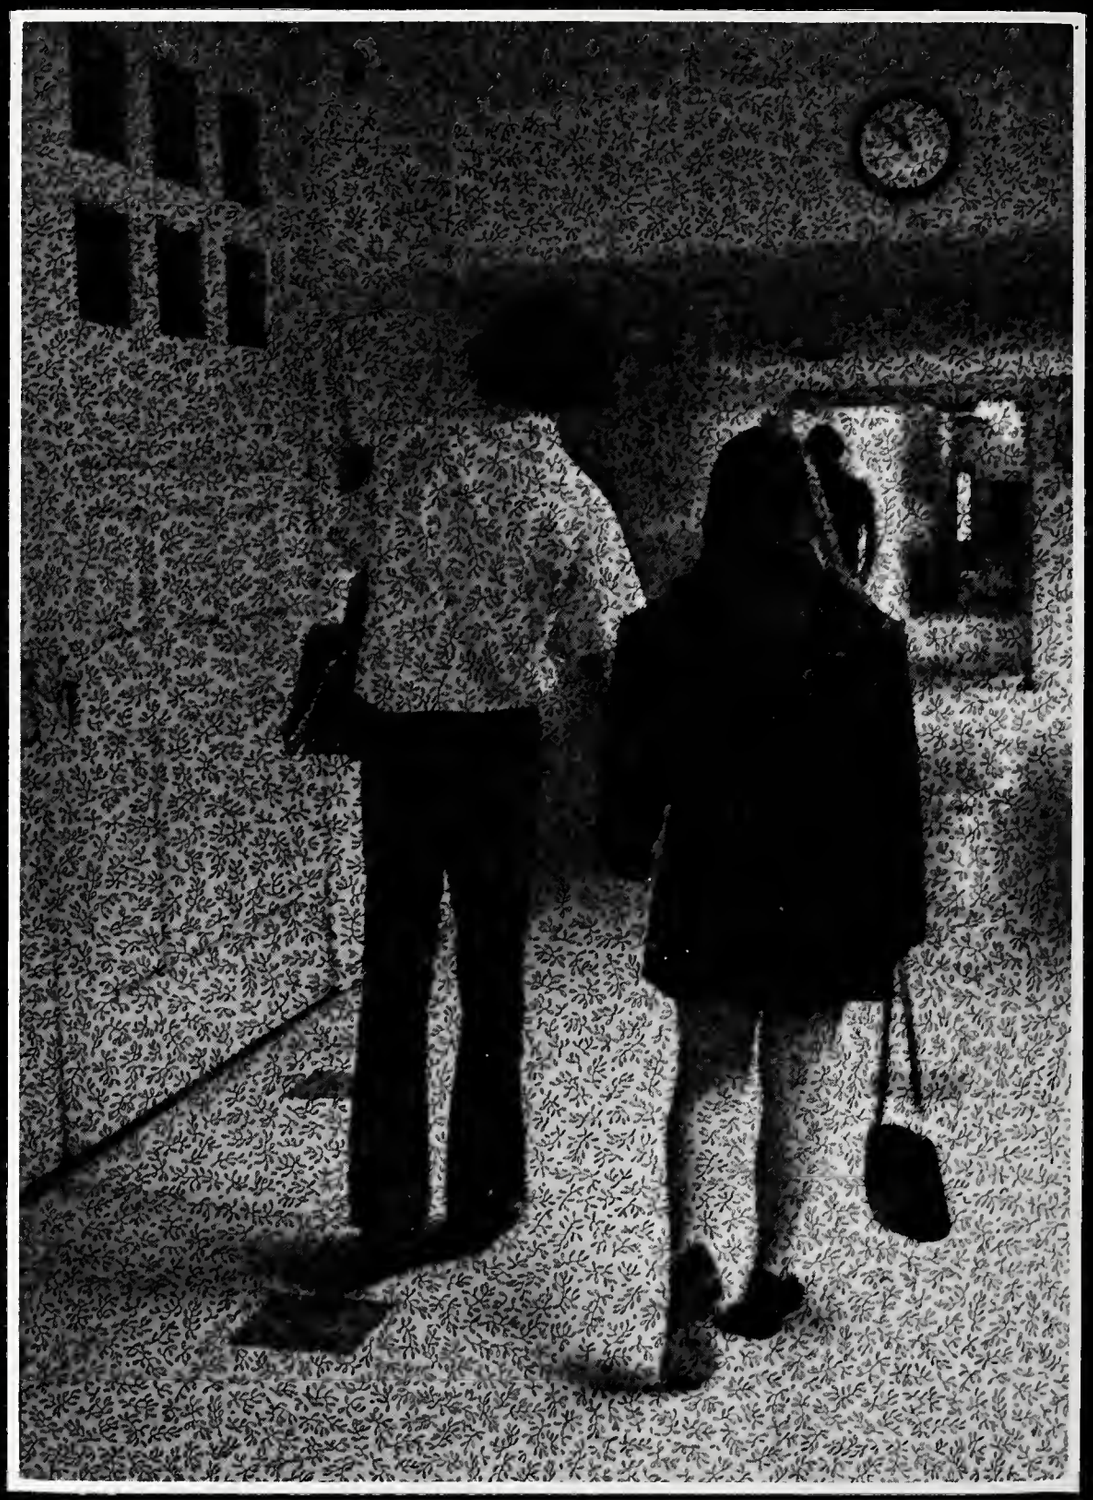
"Enthusiastic Cheerleaders Support Teams Efforts"

A cheerleader has the spirit; she's the one who's always there. A cheerleader is the one that yells when her team is doing fine; the one who cheers them when they've lost, knowing they'll do better next time. A cheerleader paints all the signs and stays late after school; she practices whenever she can and goes to bed late as a rule. A cheerleader is loyal, a cheerleader is strong. She always tries to do her best; she tries to do no wrong. A cheerleader is a little sad when the year nears an end; but when she has to give it up, she's glad of what she's been.

(1) — Varsity Cheerleaders: Kathy Quince, Carol Redmond, Maureen Moran, Jamie Wise, substitute Marilyn Miller.
(2) — Reserve Cheerleaders: Kim Strock, Shelia King, Brenda Bergner.

WHAT GHS THINKS



ABOUT ASSOCIATES

The main purpose of the school board is to provide facilities and personnel for the education of the children in the school district. (Charles Rowe) ... I feel that all members of the school board should be open-minded, impartial, and they should have the guts to stand up for their beliefs. A good school board member should always devote time to meetings, because this is also a important part of being a board member. (Joseph McCorkel) ... Teachers are human. One of the lovable characteristics of humans is that they are subject to error just like anyone else. (Charles Rowe) ... One of the hardest decisions that we had to make dealt with firing a teacher. Also, the dicision that dealt with teachers salaries for next year was a hard decision to make. (Joseph McCorkel) ... It is the responsibility of the Administration to co-ordinate all facets of the instructional program. (Charles Puff) ... I want the best possible educational opportunities for the community, and I feel that being a School Board member is one way to do my part. (Gene Bartles) ... In handling disciplinary matters, the Administration is concerned that the views of the student as well as those of the teacher are presented and a decision is made in a fair way. (Charles Puff) ... The School Board has responsibility. (Gene Bartles) ...

Supt. Puff

Mr. Jay

Pres. Chisholm

V. Pres. Rowe

Mr. McCorkel

Sec. Bartels

Principal Paul McFann Remarks: My first year as an administrator has been extremely rewarding, enjoyable and exciting ... I have no regrets about changing jobs, but as is true in any situation you miss seeing the individuals with whom you have been working ... I've had to make small adjustments from vocational director to Principal. As a vocational director my duties were basically to coordinate efforts. As Principal, I am responsible for coordinating efforts of the school ... I am extremely impressed with the cooperative attitude of the students and the staff ... The favorite part of my job is observing the students.

Assistant Principal John Hutton Remarks: I have enjoyed my first year as an administrator ... Although I do miss coaching ... It has put a different light on the school as I am now on the other side of the fence. Also I know some people feel different toward me now that I am an administrator ... I think that the school's attitude as a whole is pretty good, but there is always room for improvement ... The favorite part of my job is seeing improvement in students who have always had discipline problems ... When I have to go to extremes in disciplining someone is really the only time the job is distasteful.

Graduation can be one of the most satisfying times of one's life. It can also be the most frightening. To one day wake up and have to start life is not an easy thing to do, but you must be prepared for it. It's all there is. (Joe Thomas) . . . I am facing graduation with mixed emotions. I'm very optimistic about the future but I did have a great time here. (Mark Michael) . . . I think graduation is a lot of tradition but I think it's nice. It gives the student something to remember for a long time afterwards. It's the last thing the whole class does together ever again. (Holly Fargo)

. . . Graduation is a feeling of happiness but yet of sadness too. You look back at all the times you remember in school, but yet you have alot to look forward to, too. (Lorraine Asher) . . . At first I thought graduation was the greatest. But as I looked into the gym being prepared for the graduation ceremonies, I thought that it's really scarey. There won't be anything to come back to next year. (Ruth Ann Koehl) . . . It's exciting but kind of scarey. I mean you've been going to school most of your life and now you're finally getting out. (Mary Ann Henderson) . . .

(2nd ROW) Cornelius Blomeke, Donald Dove, Emory Heitz, Paul Wilmont, Ralph Dove, Ray Souder. We all should pay tribute to the cooks, janitors, and bus drivers. Without their help, this school could not function as well as it does. Our students have a way to school, are able to eat a decent meal, and can study in nice, clean classrooms.

PENZIN

To be born is to live, second by second.

In a world that offers the dimensions of life.

The friendships, the happy times, the times of learning, and too, the times of sorrow and of loss.

The time up until that last second, when a friend is lost.

As the year draws to an end and the 1973 chapter of the Aeolian to a close, the time seems appropriate to briefly glance over the past year. The year 1973 was typical in many ways, yet it contained a few changes and exciting experiences. GHS had a new principal and assistant principal, the English department initiated a new system, the Senior and all school plays were again held, and the NEIC trophy returned to its proper home. It was a pretty good year!

At this time I would also like to acknowledge a couple of people whose help and understanding made this book possible - that is Blaine and Mrs. Tightner. They both devoted much time, energy, and hard work which was above the call of duty. For everything they did, I say 'thank you.'
